WARNER HOME VIDEO

THINGS YOU NEED TO KNOW ABOUT VIDEO:

All our videocassettes are available in the VHS-NTSC format. To our overseas customers who desire PAL or SECAM formats: sorry, we can't help you. To our diehard customers who desire Beta format: we will be happy to oblige you if possible. A small number of the titles can be had in Beta, but they will be special orders. Please inquire.

VHS Recording Speeds:

VHS videorecorders offer 3 record/playback speeds: **SP** (Standard Play/2 hr.), **LP** (Long Play/4 hr.) or **SLP/EP** (Super Long Play/Extended Play/6 hr.). Nowadays some VCR's offer only 2 speeds: **SP** and **SLP/EP**. There are a handful of tapes offered here that are only available in the LP mode. Please be aware that some VCR's cannot play LP tapes properly. Check your machine before ordering.

We're concerned with quality at Whole Toon, so we generally offer only SP tapes in the catalog. But sometimes a title is available only in EP mode, so we make an exception. Lately, more and more manufacturers are switching to EP recording in an effort to cut costs. When we know a tape is EP, we always indicate it, but sometimes we don't know if we haven't actually viewed the tape ourselves.

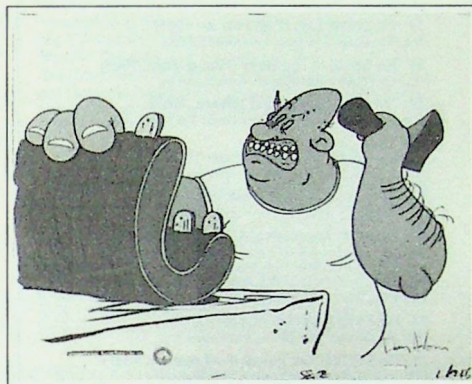

Laserdisc Formats:

There are two laserdisc formats: **Extended Play/CLV** (Constant Linear Velocity) and **Standard Play/CAV** (Constant Angular Velocity). Unlike videotape, there is no difference in picture quality between the two formats. However, only the more expensive CAV format can produce freeze-frames, variable playback speeds, multiple soundtracks and other special effects (unless you own a very expensive laserdisc player with a digital frame buffer). If you wish to study a film frame by frame, you will need to get the CAV format. (CAV also is the only video format with a true 1 to 1 film frame to video frame correspondence).

MORATORIUM is a term you'll run across often in the video world. It means that the title is no longer being produced by the manufacturer. When a tape is on moratorium, we can no longer get any from the manufacturer, although we may still have some stock left, or still be able to find a distributor with some unsold copies.

If a tape has gone on moratorium before this catalog was printed, we haven't listed it unless we're sure we can provide a decent supply. If you're looking for a tape that's not listed (i.e. many of the Disney classics), it's worth calling us to ask about it. Although we don't have it in sufficient quantity to list it, we may still be able to come up with a few copies here and there.

THE WHOLE TOON CATALOG

On our cover: *Lupo The Butcher*, created by Danny Antonucci. This delightfully warped short film can be seen on home video on *The Rocketship Reel* and *Outrageous Animation*, both listed in this catalog. Thanks Danny!... you bum—get a job!

Thanks to all you cartoon fans, we're now winding up our fourth year of the Whole Toon Catalog. Your response has been gratifying to us all. As we continue to work tirelessly to bring you more and more animation, please continue to let us know what we're doing right (and wrong).

The next time you phone Whole Toon or stop by our showroom, one of these characters will undoubtedly be standing by to take your order, answer your questions, and generally give you service that's so outstanding... it's not even funny! From left: Bob, Laurie, Doug, Gordon.

We strive to provide our customers with the most comprehensive selection of animation on Earth. We buy from hundreds of sources in several countries and we're constantly searching for more. After years of serving animation fans, scholars and professionals, we've gotten a pretty fair idea of what you want from us, and with each new catalog we try to focus more efficiently on it.

We take the *Whole in Whole Toon Catalog* seriously. Our customers expect to find cartoons here, so we continue to expand our video section with each new catalog. From the latest Disney feature release to the most obscure art film on some small video label—if it's animated (and we can get our hands on it), you'll find it listed here. We try to apply a consistent criteria to our selections, eliminating the "storybook" videos that often get passed off as animation, and live-action puppetry such as the *Muppets* or "Supermarionation" like *The Thunderbirds* and *Captain Scarlett*. This also goes for books. We offer just about every currently in-print book dealing with animation, but we don't carry comic books, *Far Side* collections, or children's storybooks.

If you don't see what you're looking for, please ask for it. Unless we have an adequate supply on hand, we won't list out of print book titles or discontinued video titles. However, we just might still have some around the store, so it can't hurt to ask. Also keep in mind that new books and videos are released constantly, while our full catalog is printed only twice a year. If something becomes available between catalogs, we'll most likely have it on hand when you call.

Flipbook drawings on the left-hand pages of this catalog are original animation drawings from *Bambi Meets Godzilla*, courtesy of Marv Newland.

The Official List of Disney Animated Features

We recently heard Disney's new feature *Aladdin* referred to as "Walt Disney's 31st animated classic". That started us wondering which the previous 30 were. When we sat down and tried to list them, we came up with several different totals, but none of them equalled 31. So we asked Disney, and here is their **OFFICIAL** list of **DISNEY'S FULL-LENGTH ANIMATION FEATURES**, reprinted *verbatim* from Disney's reply to us:

Hanna-Barbera Video Library on Moratorium

As of February 27th, 1992 the vast majority of Hanna-Barbera home video titles have been withdrawn from the market.

Turner Home Entertainment completed the purchase of Hanna-Barbera just before Christmas 1991. By New Years Day, Hanna-Barbera Home Video was disbanded and the complete assets were hauled down to Atlanta *lock stock and barrel*.

Turner says it will be at least another year before any of the withdrawn Hanna-Barbera titles are available again on home video. They say they intend to pore over the entire H-B library (we're talking thousands of hours worth) and re-assess what will be marketed, how it should be compiled and packaged, and how it should be priced.

Whole Toon will be allowed to continue drawing on existing inventories of H-B Home Video titles, but the selection is limited to what was sitting in their warehouse at takeover time, and this stock has been dwindling fast.

If you want *Jonny Quest*, *Herculoids*, *Space Ghost*, *Flintstones*, *Jetsons*, *Yogi Bear*, or you name it - *act fast*. We are selling out of different titles weekly, but we will do our best to grab that last existing copy for you if it's there to be had.

Animation Preservation Project

THE ANIMATION PRESERVATION PROJECT, sponsored by ASIFA-Hollywood, is raising funds to help save animated films made before 1950, which were made on nitrate stock and are rapidly deteriorating. An "adopt-a-cartoon" program allows individuals or groups to sponsor a film of their choice. For more information, contact ASIFA-Hollywood, P.O. Box 787, Burbank, CA 91503.

An Introduction To Japanese Animation by Fred Patten

Fred Patten is, among other things, a noted scholar of Japanese animation. Fred is currently with Streamline Pictures, one of the leading distributors of Japanese animated films theatrically and on home video. Fred was kind enough to find time to write this article for the benefit of our readers who are not yet familiar with the vast array of Japanimation recently becoming available in America.

Japanese animation, sometimes called Japanimation ("Japan-i-mation", not "jap-animation") or anime ("annie-may", the Japanese word for animation), is currently the hottest new category on the video market. American fans first discovered Japanese animation about fifteen years ago, when the giant-robot cartoons started appearing on Japanese-community TV stations in Los Angeles, New York, San Francisco, and other large cities. During the 1980's, science-fiction cartoons such as *Star Blazers* and *Robotech* introduced more Americans to the idea that "TV cartoons aren't just for kids any more", and that these exciting cartoons were common in Japan. The most enthusiastic fans even obtained videos in the original Japanese, to enjoy the dramatic action even though they couldn't understand the dialogue.

Japanese animation "officially" arrived on the American video market in 1990, when the first American specialty video companies were formed to buy American rights to Japanese cartoons, and dub or subtitle them in English for legitimate sales. For the first couple of years, these videos were usually available only through the comic book specialty shops. Finally, in 1992, the major video chains began to add a Japanese animation section to their shelves.

There is a wide choice of subject matter. Most Japanese animation is science-fiction or fantasy, but this can range from zany "space high school" teen comedies to horrific gore-fests that need a "mature audiences" advisory warning. Here are some broad categories for the newcomer to Japanese animation to explore:

SPACE OPERA: Adventures in spaceships and on other planets. *Star Wars*-type plots. These are usually suitable for family audiences, but there are a few *Alien*-type shockers.

Captain Harlock	Macross II
Dallos	Odin
Dangaio	Planet Busters
Dirty Pair	Robotech
Gall Force	Robotech II
Gunbuster	Star Blazers
The Humanoid	Tekkaman
Lensman	They Were 11
Macron-1	Venus Wars
	Zillion

CYBERPUNK: Adventures usually set in future cities which pit man against technology gone out of control. These often have cynical, downbeat plots.

Akira	Bubblegum Crash
Appleseed	Dominion
Black Magic M-66	The Gypsy
Bubblegum Crisis	Madox-01

What is the attraction of Japanese animation? Basically that it's exciting and adventurous, while most American animation is still designed to pass approval by the watchdog groups who monitor TV programming for children. Japanese animation is not designed for fans of the cartoon art-form. It is for fans of science-fiction and horror movies such as *Star Wars*, *Alien*, *The Terminator* and *Dracula*. Adults in their older teens, twenties, and thirties who feel that they have outgrown Saturday-morning TV and *Care Bears* movies, but who still enjoy Marvel Comics and movies such as *Die Hard*, *Bladerunner* and *Batman*, are finding that they can get these on Japanese animation videos, where the animation medium permits spectacular special effects.

In Japan, animation is considered by the public to be as valid a medium for cinematic and TV drama as any other. There are plenty of traditional children's cartoons, animated historical dramas and prime-time TV cartoon sitcoms. There was even a cartoon soap opera about the struggles of a high school girl's volleyball team trying to win a championship. Famous examples of world literature such as Alcott's *Little Women* and Montgomery's *Anne Of Green Gables* have been animated as half-hour TV cartoon serials running for a year. But Americans

aren't particularly interested in these. What has caught our attention is primarily the dramatic science-fiction and horror cartoons. These are what we think of as "Japanese animation".

To address another quibble, "Japanese animation" should properly be defined as those animated films and TV shows that are made for the Japanese public, and only later sold to other countries like America as "foreign sales". Animation that is planned by American animation studios for American movies or TV, but is subcontracted to Japanese studios for inexpensive ink and paint labor, is still American animation. Otherwise you would have to call several Hanna-Barbera and Marvel cartoons, many TV specials such as Rankin-Bass' *The Hobbit*, and even a Disney feature or two "Japanese animation".

Japanese animation is either dubbed into English, or kept in the original Japanese language with added English subtitles. Each technique has its advantages and disadvantages; its supporters and opponents. Which way is better is so much a matter of personal taste that you had best try at least one video each way to see how you like them, then shop for future videos according to your preference. Most video catalogues will specify when a video is subtitled. If it doesn't say otherwise, it's usually safe to assume that the video is dubbed in English.

FANTASY HUMOR: Usually involves teenagers in fantasy or science-fiction plots which emphasize adolescent concerns ("if I build a giant robot, will the girls think I'm cool?").

Kimagure Orange Road	The Ultimate Teacher
Project A-Ko	Urusei Yatsura

OTHER SCIENCE FICTION: A catch-all for stories of time-travel, post doomsday survival, finding aliens hidden among humans, Jules Verne-esque old-fashioned adventure, and others.

Crystal Triangle	Nadia
Fist Of The North Star	Orguss
Harmagedon	Robot Carnival
Locke The Superpower	Roots Search
M.D. Geist	Rumik World: The Super Gal
Rumik World: Fire Tripper	Windaria

HORROR FANTASY: Vampires, demons, supernatural monsters, etc.

Rumik World: The Laughing Target	
3 x 3 Eyes	Vampire Hunter D
Vampire Princess Miyu	

FINE-ART FILMS: For the intelligentsia.

Grave Of The Fireflies	Twilight Of The Cockroaches
------------------------	-----------------------------

MUNDANE ADVENTURE: Rambo-type battlefield action, detective/crime plots etc.

Area 88	Explorer Woman Ray
The Castle Of Cagliostro	Riding Bean

NOSTALGIA: The earliest Japanese TV cartoons of the 1960's, when the American public didn't realize that these were from Japan.

THE ART OF THE ANIMATED IMAGE

Edited by Charles Solomon (1987)

This anthology was published in conjunction with AFT's Walter Lantz Conference On Animation (June 1987) and is a collection of essays and talks presented on a wide range of topics within the animation field. Subjects range from early pioneers such as J. Stuart Blackton, a technical discussion of Disney's multiplane camera, women in animation, to today's computer animation. A loose chronicle of animation as told by a variety of authors, from those that were there in the early days to those working on the future of animation.

Most orders will be shipped via Priority Mail or United Parcel Service. Post Office Boxes and APO/FPO's must be sent by mail, so please give us a street address to ship to if possible.

Most orders will be shipped within 2 weeks but occasionally we need longer, so please allow 4 to 6 weeks for delivery. If you need delivery sooner, please indicate it on the "Special Instructions" line at the top of the order form.

DAMAGED GOODS

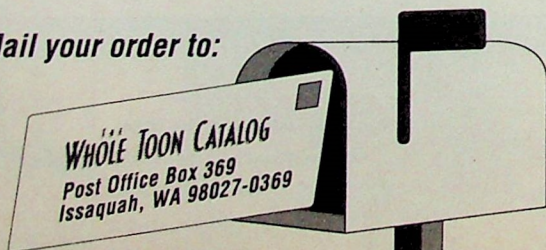

All shipments are insured. If you receive goods damaged in transit, **please contact the carrier first** (UPS or the Postal Service) and report the damage. Then notify us so that we may rush you a replacement for the damaged merchandise.

SHIPPING & HANDLING

INSIDE THE CONTINENTAL U.S.A.

CHARGES FOR UPS GROUND OR FIRST CLASS MAIL:

VIDEOCASSETTES are \$1.25 each.

LASERDISCS are \$1.25 each.

POSTERS are \$4.50 per tube-full (up to 10 posters in one tube).

ALL OTHER ITEMS vary greatly in weight and size, so there is a shipping charge indicated for each item directly underneath the selling price listed in the catalog. If no shipping charge is shown, it's FREE.

THERE IS A \$4.00 MINIMUM SHIPPING & HANDLING CHARGE.

Therefore, if the total of the individual shipping charges adds up to less than \$4.00, you must still pay the \$4.00 minimum.

Shipping charges include insurance, and are calculated to reflect the cost of a typical-sized shipment. If you are placing a very large order, please ask us to calculate your shipping charges specially. You may save some money.

CANADA

Most orders are sent via Air Parcel Post. Orders weighing 2 pounds or less will fall under our \$4.00 minimum shipping charge. Larger packages must be mailed at a more expensive rate, so figure **double** the regular shipping charges. If you charge your purchase to a credit card, we will calculate the exact shipping cost and add it to your bill.

OUTSIDE NORTH AMERICA

If you charge your purchase to a credit card, we will calculate the exact shipping cost and add it to your bill. Please specify Air Parcel Post or Surface Mail (please note that Surface Mail can take at least 6 weeks). If you do *not* use a credit card, please send us your order without payment. We will advise you of availability of the items you want, and notify you of the total cost, including shipping. You may then send us a money order in U.S. Dollars (money orders must be drawn on a bank with a U.S. branch office).

RUSH DELIVERY

As a special service, we can send your order via several air carriers: UPS 2-Day Air, UPS Next Day Air, Federal Express or Express Mail. This service is available on phone orders only, so that we may confirm the item availability and advise you of the extra cost.

TALKING DOLLS!

Oh Joy Of Joys! Ren and Stimpy each say six familiar phrases from the TV show such as "I'm going to be sick" and "You could play with your magic nose goblins". Ren's voice is activated by pulling on his outie belly button. Stimpy speaks when you pull the hairball lodged in his throat! (really!)
